Drive innovation with the most comprehensive collection from IEEE

The IEEE Electronic Library (IEL) contains one-third of the world’s current literature in electrical engineering, communications, and computing. IEL provides researchers, engineers, and students access to technology’s most trusted journals, conference proceedings, and standards—millions of articles to help fuel imagination, build from previous research, and inspire new ideas.

IEL delivers key benefits for researchers:

- Drive new ideas, designs, and applications with cutting-edge research
- Develop better solutions faster by understanding the technology landscape
- Stay ahead of advancements and benchmark competitor research
- Increase productivity by reviewing previous research without having to reinvent the wheel
- Accelerate innovation and patent development with convenient access to proven research all in one place
- Increase scholarly output and new research development

New subscription titles for 2020*

Always at the forefront of technology, IEEE adds new journals every year:

- IEEE Journal of Emerging and Selected Topics in Industrial Electronics
- IEEE Journal on Selected Areas in Information Theory
- IEEE Transactions on Technology and Society

*Listing current as of 30/2019 and is subject to change.

Research you need at an exceptional value

Subscribing separately to all publications included in IEL would cost more than US$1.4 million. A typical IEL subscription includes more content for just a fraction of the price. With pricing tailored to the needs of your organization—you can be sure you’re getting the best value for your money.

Access respected technology research that generates results

IEEE Xplore includes top-ranked journals and technology research that is cited in patents three times more often than any other publisher. With approximately 5 million full-text articles and papers, IEEE Xplore is your gateway to more than 30% of the world’s current literature in electrical engineering, electronics, and computing.

Find relevant research faster with powerful search tools

IEEE Xplore combines an easy-to-use interface with powerful search features that make finding relevant research faster and more efficient.

Search: With an upgraded search engine, Basic, Advanced, and Author search options and a “Refine/Expand Results” module let users modify and find results more easily.

Personalize: Users can also personalize IEEE Xplore to create targeted saved searches and table of contents alerts, and set personal preferences.

New Features: These include the newly upgraded MyXplore smartphone app, mobile-friendly pages, and a related articles module that makes precise recommendations based on user interests. Leverage code and datasets in IEEE articles with the integration of Code Ocean and IEEE DataPort™.

IEEE Xplore also provides:

- Approximately 5 million documents in full-text PDF format, with more than two million in a robust, dynamic HTML format
- Multiple authentication options for on-site, remote, and mobile users
- Abstract/citation and bibliographic records for subscribed content
- Mobile-friendly design
- Daily content updates

Get the latest research in a wide range of technologies including:

- Aerospace and Defense
- Biometrics
- Computer Hardware and Software
- Cyber Security
- Electronics
- Internet of Things (IoT)
- Medical Devices
- Nanotechnology
- Optics
- Power Engineering
- Robotics
- Semiconductors
- Smart Grid
- Telecommunications
- Wireless Technology
